TECHNICAL SKILLS

- Programming Languages: Java, C, Python
- Web Technologies: HTML, CSS, JavaScript, PHP, React.js
- Backend & Frameworks: Node.js, Express.js
- Databases: MySQL, MongoDB
- Tools & Platforms: Electron.js, Git, GitHub
- Operating Systems: Windows, Linux

PROJECTS

OffyAI — Offline AI-Powered Program Generator

- Built an offline code-generation tool for students and beginner developers, enabling program generation without an internet connection for use in low-bandwidth environments.
- Fine-tuned a pre-trained model using a custom dataset sourced and curated from Kaggle to improve output accuracy and code quality.
- Designed output to produce simple, structured, and beginner-friendly code that reinforces core programming concepts.

Technologies: Python, Machine Learning (Model Fine-Tuning), Kaggle Datasets & Pre-Trained Models, Electron.js, JSON/JSONL, File System Handling

Portfolio Website

- Designed and developed a personal portfolio site to showcase projects, technical skills, and web development experience.
- Implemented interactive UI components and smooth navigation to improve visitor engagement.

Technologies: HTML, CSS, JavaScript, React.js

Kishu Events — Event Management Web Application

- Built a full-stack, responsive event management platform supporting event creation, registration, and booking management.
- Implemented user authentication and real-time event updates with MongoDB integration for seamless data handling.

Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB

Rock Paper Scissors Game

- Developed a browser-based game with real-time score tracking and randomized computer move logic.

Technologies: HTML, CSS, JavaScript

Unica Jewellery — E-Commerce Jewellery Website

- Developed a responsive e-commerce website featuring product listings, category browsing, and a modern UI design.
- Built interactive front-end features and optimized the user experience for seamless product exploration.

Technologies: HTML, CSS, JavaScript, React.js

ProEdge Website Replicate

- Rebuilt a responsive replica of the ProEdge website with modern UI components and optimized layouts across devices.

Technologies: HTML, CSS, JavaScript, React.js

WhatsApp URL Generator

- Built a web tool to generate direct WhatsApp chat links with customizable pre-filled messages.

Technologies: HTML, CSS, JavaScript

Quizzes Website

- Built an interactive quiz platform with multiple categories, dynamic question handling, and real-time score tracking.

Technologies: HTML, CSS, JavaScript, React.js

EDUCATION

Bachelor of Computer Applications (BCA) J.M.J BCA Degree College, Chipgi — Karnataka University, Dharwad CGPA: 8.08 / 10 3rd Year, 6th Semester	2022 – 2026
Pre-University Course (12th Grade) Shree Marikamba Govt. PU College, Sirsi — 50.33% (302/600)	March 2023
S.S.L.C (10th Grade) Morarji Desai Residential School, Kaggundi (Piriyapatna) — 82.72% (517/625)	July 2021

CERTIFICATIONS

- Python — Skill India Hub with Reliance Foundation
- Front-End Development — Skill India Hub with Reliance Foundation

CORE COMPETENCIES

- Logical Problem Solving
- Team Collaboration
- Communication Skills
- Self-Learning & Adaptability
- Multi-Tasking
